SUMMARY

Adaptive full-stack web developer with front- and back-end knowledge . Fast learner, hard worker and team player who is ready to bring an enthusiastic attitude to any work environment.

TECHNICAL SKILLS

Languages: Python, Java, React, JavaScript, HTML and CSS. Frameworks: Bootstrap, Node.js, Django, Flask, Spring and Express. Databases: MySQL and MongoDB.

TECHNICAL PROJECTS

[Archify](#) | React | Full Stack Developer   2021

- Application created using React, React-Bootsrap, Material-UI and MongoDB in which users can catalog their favorite projects and view those submitted by others.
- Users can login to access the project list, edit project information and view details about each project.
- The idea for this was based on my love for architecture and the way it shapes how we experience our surrounding environment.

[Handy Helper](#) | Python | Full Stack Developer   2021

- Created using Django framework.
- Users must be logged in to access jobs(Django-authentication).
- Jobs can be created, given away or deleted.
- Users may also add jobs from other users to their own list of jobs and mark them as done once completed.
- Details page includes info about jobs.

[Study Buddy](#) | React | Full Stack Developer(Collaboration)   2021

- A study timer based on the Pomodoro study technique.
- Users can login to their Spotify account (with Spotify API authenticate) and enjoy focus music in the background while studying or working on a project.
- There is also an option to change background color according to mood.

PROFESSIONAL EXPERIENCE

Bartender | *The Matador* | Tacoma, WA   2021-Present
